

REFRACOL

Applications

1	2	3	4
Heart of roof	Roof of bricks	Sidewall	Pouring aera
Monolithic heart of roof	Jointing cement for bricks in Roof	Ramming mixes for working lining	Ramming mix for tap hole and launder
Castable mixes for sealing heart of roof	Castable mixes around electrode rings	Jointing cements for safety bricks	Hot repair dry mix for launder
	Ramming mixes around electrode rings	Sticking cement for insulating material	Precast launder
	Precast electrode ring		Precast tap hole
			Mix for hot repair

Our Products

Aera	Applications	Products
1) Heart of Roof	Bauxite monolithic precast	Refravibre 870, 890
	Tabular alumina monolithic precast	Refravibre 910S, 930
	High alumina castable mixes for sealing heart of roof	Beton 9400, 391 F, 940
	Quick setting castable mix for sealing heart of roof	Refrapide LC 487 F
	Self flowing castable mix for sealing heart of roof	Castalone C496
2) Roof of bricks	Jointing cement for bricks in Roof	Refracol 6 A72, 6 T
	HA castable mixes for sealing bricks of electrode rings	Beton 391, 9400/10
	Ramming mix for sealing the bricks of electrode rings	PR 290, Refram 492
	Precast electrode ring	Refravibre 870, 890
3) Sidewall	Magnesia ramming mix for working lining	Mixomag 55, 192
	Jointing cements for safety bricks	Refracol 7, 6 A72, 8
	Sticking cement for insulating material	Refracol 12 A
4) Pouring aera	Ramming mix for sealing the launder	Mixomag 55, 192
	Ramming mix for sealing the tap hole	Mixomag 55, 192
	Ramming mix for hot repairing launder	Mixomag 789 H
	High alumina - SiC Precast tap hole	Refravibre K780
	High alumina - chromoxyd Precast tap hole	Refravibre 845 A10
	High alumina - SiC Precast launder	Refravibre K780
	High alumina - chromoxyd Precast launder	Refravibre 845 A10
	Hot repairing mix for tap hole	Castalone S712
